Proclamation:

Modoc County: On 06/18/18, a proclamation was received from Modoc County, due to lack of irrigation water in the Tulelake Basin. There is no request for a Governors Declaration or State or Federal assistance at this time.

Train Derailment, Unincorporated county area Madera, Madera County, Hazardous Materials Spill Report: 18-3987

On 06/18/18 at 1044 hours, the California State Warning Center (CSWC) received a report from Burlington Northern Santa Fe (BNSF) advising that two locomotives and one railcar derailed upright on the industry track in Trigo, CA.

- The reason for the derailment is under investigation.
 - No hazardous materials released.
 - The railcars were empty.
 - No waterways were impacted.
 - No injuries to crew members occurred.
 - Notifications were made per Hazardous Materials SOP.
-
- See Fire Activity Slides.

Cal OES SOUTHERN REGION

Train Derailment, Los Angeles, Los Angeles County, Hazardous Materials Spill Report: 18-3983

On 06/18/18 at 1016 hours, the California State Warning Center (CSWC) received a report from Union Pacific Railroad (UPRR) advising that two railcars derailed upright.

- The incident is under investigation.
- No hazardous materials released.
- No reported injuries to crew members.
- Notifications were made per Hazardous Materials SOP.

SITUATION SUMMARY

Cal OES SOUTHERN REGION (Continued)

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

Per the Cal OES Southern Region AREP on 06/14/18 at 0846 hours:

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed there are no commercial premises currently involved and there is no public health risk due to this virus.
- Incident Management Teams (IMTs) transitioned on 06/16/18. The IMT Red Team started on 06/17/18.

Activations

- San Bernardino Operational Area (OA) EOC is activated to Level 3 (lowest level) and will continue to monitor the incident.

Deployments

- One (1) Cal OES Southern Region Senior ESC deployed to ICP as an AREP. Operational period of 0700-1900 hours.

WEATHER OF CONCERN

Weather of Concern

- Temperatures will be on the rise this week across all areas, as we warm up to above-average temperatures by Thursday and Friday. Interior and desert locations will see the strongest warm-up, with coastal location seeing more subtle temperature changes.

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER SYNOPSIS BY REGION

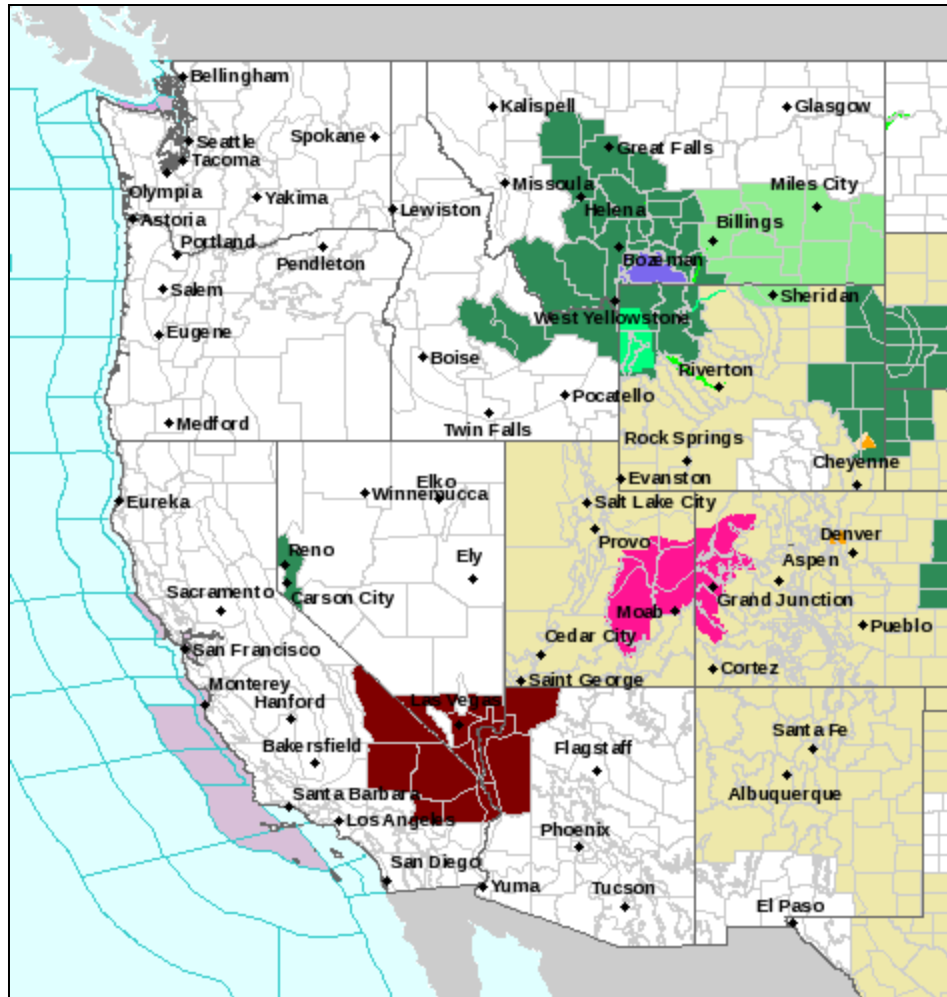

NORTHERN CALIFORNIA

A high pressure ridge will move overhead Tuesday and Wednesday and boost temperatures up to 10 degrees above normal with light winds and low relative humidity (RH). However, a weak disturbance moving into OR could produce showers and thunderstorms in Del Norte and western Siskiyou Counties Wednesday evening. A low pressure trough will move over the region Thursday and bring an increase in S-W winds, but with higher RH and temperatures closer to normal. Friday will be warmer and drier as we transition back to high pressure, and next weekend will be hot and dry as the high pressure passes over the region.

SOUTHERN CALIFORNIA

Temperatures will be 5 to 10 degrees below normal, with mid 60s to mid 70s across the mountains and upper 70s and 80s in the valleys. Substantial warming and drying will continue away from the coastal areas through Wednesday as a ridge of high pressure currently off the Northern Baja Coast moves overhead. Temperatures will be around 10 degrees above normal and minimum humidity will drop into the single digits and teens away from the coastal areas by Wednesday. There will be little change in the hot and dry conditions Thursday and Friday as high pressure remains overhead. High pressure may weaken some this weekend bringing a little cooling to the area.
